#### **Independent Auditor's Report**

To the Honorable Mayor and Members of the City Council City of Pella, Iowa

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the City of Pella, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the City of Pella as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

### Other Matters

#### Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 5-10 and 48-51 be presented to supplement the basic financial

statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pella's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 4, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Governmental Auditing Standards*, we have also issued our report dated March 6, 2014 on our consideration of the City of Pella's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Pella's internal control over financial reporting and compliance.

March 6, 2014

The City of Pella provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the City's financial statements, which follow.

#### 2013 FINANCIAL HIGHLIGHTS

- The assets of the City of Pella exceeded its liabilities at the close of the fiscal year by \$105,745,877 (net assets).
- The assets of the City's governmental activities exceeded liabilities by \$44,125,576.
- Assets of business type activities exceeded liabilities by \$61,620,301.
- The revenues of the governmental activities exceeded expenses by \$2,501,040.
- Within the City's business-type activities, expenses exceeded revenues by \$2,197,420. The City policy is to set rates that fund operation expenses and debt service requirements of business-type activities. In addition, rates are established to fund capital improvements either through pay-as-you go financing or through debt issues.
- At June 30, 2013, the general fund had an unrestricted fund balance of \$2,055,057 or working capital of nearly 42% of annual expenditures.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The City's basic financial statements consist of government-wide financial statements, fund financial statements, and notes to the financial statements. This discussion and analysis is intended to serve as an introduction to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to private-sector business. The paragraphs below provide a brief description of the government-wide financial statements.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the changes occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods such as uncollected taxes and earned but unused vacation leave.

The government-wide financial statements are divided into two categories:

**Governmental activities -** This category consists of services provided by the City that are principally supported by taxes and intergovernmental revenues. Basic City services such as police, fire, public works, planning, parks, the library, and general administration are governmental activities.

**Business type activities -** These activities are supported primarily by user fees. The services provided by the City in this category, include water, sewer, sanitation services, and electrical utilities.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure compliance with legal requirements for financial transactions and reporting. All of the City's funds can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds** are used to account for essentially the same functions reported as governmental in the government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on the balance of resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near term financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains two individual major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital project fund, both of which are considered to be major funds. Data from the other twenty-two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general, debt service, capital projects, and special revenue funds. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with this budget.

**Proprietary funds** can be categorized into two groups, enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its electric, water, sewer, and environmental services utilities. Internal Service funds are accounting devices used to accountlate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its health insurance program.

The financial statements of the proprietary funds provide the same type of information as the government-wide financial statements with greater detail.

**Notes to the financial statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net assets as noted earlier, may serve as a useful indicator of a government's financial position when observed over time. In the case of the City, assets exceeded liabilities by \$105,745,877 at the close of the most recent fiscal year.

The most significant portion of the city's net assets (87.21%) are reflected in capital assets such as land, buildings, infrastructure, machinery, and equipment less any related outstanding debt used to acquire those assets. These capital assets are used to provide services to the citizens and are not available for future spending. A portion of the City's net assets (4.12%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of net assets or the unrestricted net assets of \$9,160,054 may be used to meet the City's ongoing obligations to citizens and creditors.

#### FINANCIAL ANALYSIS OF THE FUND FINANCIAL STATEMENTS

Governmental funds provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balances serve as a useful measure of a government's net resources available at the end of the fiscal year.

The City's governmental funds reported a combined fund balance of \$6,207,297 at June 30, 2013. This was an increase of \$412,300 from the prior year and was due to the building of revenues for future capital projects. A summary of each of the government major fund balances is as follows:

#### **General Fund**

The general fund's balance increased by \$1,150 in Fiscal Year 2013. As a result, our fund balance increased to \$2,057,037 which represents approximately 42% of annual expenditures. The modest increase was attributed to concerted effort to maintain fund balances with through disciplined fiscal management.

#### **Capital Projects Funds**

The capital project funds are comprised of one main fund and five smaller funds which are as follows:

**Capital Facilities Fund** had a fund balance of \$144,261 at June 30, 2013. General Fund capital improvement projects are funded out of this fund. Annually the General Fund transfers amounts to cover expenditures made in the Capital Facilities Fund. However, the fund balance is also available to supplement any capital purchases made by the General Fund.

Other Capital Facility Funds had a total fund balance of \$0 at June 30, 2013.

#### **Proprietary Funds**

The City's proprietary funds provide the same information found in the government-wide financial statements with greater detail.

The combined net assets of the enterprise funds at June 30, 2013 totaled \$61,620,301 of which \$6,914,519 is unrestricted. Overall, net assets for the enterprise funds decreased by \$2,197,420 largely due to the decommissioning of the City's power plant.

The net assets of internal service funds, which is comprised of the City's health insurance trust fund decreased from \$749,608 to \$741,633. The majority of the increase was due to slightly higher than expected claims for the year.

#### **BUDGETARY HIGHLIGHTS**

The FY 13 budget was amended on April 16, 2013 for the following reasons:

- Expenditures were increased \$110,000 for the repair of one substation transformer at the Vermeer Substation.
- Expenditures were increased \$100,000 for replenishment of the electric transformer inventory.
- Expenditures were increased \$225,000 for costs associated with the power plant decommissioning.
- Expenditures were decreased \$283,000 for lower than anticipated costs associated with the Diesel Plant Rice Project.
- Expenditures were increased \$15,372 for the planting of additional street flower beds.
- Expenditures were increased \$905,294 for the City's portion of the Pella Sports Park expenditures.
- Expenditures were increased \$10,000 for the aviary at the library funded through gifts.
- Expenditures were increased \$15,777 for new computers and software for the Aquatic Center.
- Expenditures were increased \$36,700 for a new tractor to replace old equipment which was no longer repairable.
- Expenditures were increased \$22,892 to replace and repair the Molengracht Parking Garage lighting.
- Expenditures were increased \$146,600 for the reconstruction of Hazel Street.
- Expenditures were increased \$127,850 for the reconstruction of the Washington Street/Broadway Street intersection.
- Expenditures were increased \$11,000 for emergency water main repairs.
- Expenditures were increased \$36,000 for the installation of a larger water main on Main Street.
- Expenditures were increased \$12,411 for a new shallow well #5 pump, which failed during the cleaning process.
- Expenditures were increased \$55,000 for increased use of chemical bioxide due to drought conditions.
- Expenditures were increased \$17,000 for radios for the programmable logic controllers water treatment plant and towers.
- Expenditures were increased \$27,850 for several small miscellaneous expenditures.

- Timing differences for expenses that were budget for fiscal year 2012 but will be expended in fiscal year 2013 accounted for \$969,585 increase in expenditures.
- Timing differences for expenses that were budget for fiscal year 2013 but will be expended in fiscal year 2014 accounted for \$2,794,314 decrease in expenditures.
- The July 1, 2012 estimated beginning fund balance used for the budget was increased by \$9,500,595 to match the actual ending fund balance at June 30, 2012.

None of the above variations are expected to have a significant effect on future services or liquidity.

#### **CAPITAL ASSETS**

## **Capital Assets**

Major construction projects and associated expenses for the year included the following:

#### **Governmental Activities**

West First Street Reconstruction was completed \$225,858
East Third Street Reconstruction was completed \$152,942
Purchase of a new street sweeper for the Public Works Department \$209,880
Continue construction of the Pella Sports Park \$1,874,609
Purchase of a new Police Vehicle for the Police Department \$37,441
Reconstruction of the Washington Street and Broadway Street intersection \$91,505
Engineering and Design Expense related to the rehabilitation of the indoor swimming pool \$115,767

#### **Water Fund**

South Water Tower painting \$205,521
East Third Street water distribution main replacement \$59,567
West First Street water distribution main replacement \$40,157
Early stage development of the membrane treatment addition \$68,232

## **Wastewater Fund**

Finish replacing sewer mains under East Third Street \$286,709 IDNR bypass mandate improvements \$1,488,453 Required repair of the screw pump \$62,152 Wesley Life sewer dedicated \$151,603

#### **Electric Fund**

Finish work on the Clark Street Substation \$2,339,751
Finish work on the Electric SE switching station \$265,837
Purchased Freightliner Aerial Truck \$155,000
Required diesel plant RICE upgrades \$561,147
Repair of the Vermeer transformer \$112,340

Additional information concerning the City's capital assets can be found in the notes to the financial statements.

#### **DEBT ADMINISTRATION**

At the close of fiscal year ended June 30, 2013, the City had bonds outstanding of \$9,609,628. The City maintains an Aa3 rating from Moody's Investor Services on all its general obligation debt and an A2 on electric revenue debt.

The City approved a long-term power supply contract with Missouri River Energy Services (MRES) beginning April 1, 2012. The agreement also included the sale of the City's 1.33% ownership share of Walter Scott Unit 4 for \$26.8 million. With the proceeds of Walter Scott 4, the City defeased three revenue bonds for a total of \$12.1 million. As of June 30, 2013, \$600,000 of bonds considered defeased are still outstanding.

State statutes limit the amount of general obligation debt an lowa city may issue to five percent of the actual assessed valuation at January 1, 2011. The current general obligation debt limitation for the City is \$33,615,304 and at June 30, 2013 there was \$3,115,000 of outstanding general obligation debt. Therefore, the city's available debt margin is \$30,500,304 or 90.73%.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

While the City has experienced stagnate growth in valuation of existing residential and commercial valuations, the past two years have resulted in considerable growth in new residential and commercial construction. This continued growth has led to unemployment rates in Marion County of 4.5%, slightly under the State average of 4.7%. While the local economy continues to expand at a conservative rate, the increasing need to replace aging infrastructure, respond to unfunded mandates by federal and state regulatory agencies and the continuing need to pursue long term water supply plan enhancements may eventually necessitate utility rates increases.

Also of concern is the State's legislative changes to the property tax system, primarily the commercial property and industrial tax classification. While the City's balances maintain the necessary reserves and flexibility to accommodate modest changes, reductions in the ability to collect property tax or reductions in intergovernmental funds may impact the City's ability to continue to maintain or enhance service levels.

Listed below is a brief summary of the City's property and utility rates as established in the Fiscal Year 2014 Budget:

## **Property Taxes**

The City was able to maintain its property tax rate slightly below the historically stable rate of \$10.20/\$1,000 of taxable valuation. The expected rate for FY 2015 continues the City's commitment to maintaining one of the lowest property tax rates in the state.

## **Electric Rates**

The fiscal year 2014 budget maintains the current electric rates; however the City may need to enact an Energy Cost Adjustment of approximately 2% in FY 2015 to fund the recent 5.3% power supply increase from Missouri River Energy Services (MRES). It is important to note that the increase received from MRES is needed to fund the proposed \$260 million Lake Red Rock Hydroelectric Facility.

#### **Water Rates**

For fiscal year 2014, the City expects no rate increase in water rates. However, if Council proceeds with implementation of the City's \$14 million water supply plan, water rates will need to be increased approximately 20-30% to fund the plan.

#### **Wastewater Rates**

In fiscal year 2013 and 2014, modest rate increases were necessary to fund the Iowa Department of Natural Resources (IDNR) mandates to reduce bypassing.

#### Requests for Information

This financial report is designed to provide a general overview of the City's finances. Questions concerning any of the information provided in this report or request for additional information should be directed to the Finance Director, 825 Broadway Street, Pella, Iowa 50219.

# Exhibit D

City of Pella, Iowa Reconciliation of the Balance Sheet Governmental Funds to the Statement of Net Position June 30, 2013

| Total fund balances of governmental funds (Exhibit C)   | \$<br>6,207,297  |
|---|------------------|
| Amounts reported for governmental activities in the statement of net assets are different because:  |                  |
| Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds. The cost of assets is \$61,461,540 and the accumulated depreciation is \$20,613,507.   | 40,848,033       |
| An internal service fund is used by management to track the collection and payment of various employee benefits. The assets and liabilities of the internal service fund are included in the statement of net position.   | 741,633          |
| Long-term liabilities, including bonds/notes payable, bond discounts or premiums (initial and amortized), bond issuance costs (initial and amortized), compensated absences payable, other postemployment benefits payable, and accrued interest payable are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. | (3,671,387)      |
| Net position of governmental activities (Exhibit A)   | \$<br>44,125,576 |

## City of Pella, Iowa

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances Governmental Funds to the Statement of Activities

Year ended June 30, 2013

| Change in fund balances - Total governmental funds (Exhibit E)   |  | \$       | 412,300   |
|--|--|----------|-----------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |  |          |           |
| Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Capital outlay expenditures and depreciation expense in the current year are as follows:   |  |          |           |
| Expenditures for capital assets Depreciation expense   | \$<br>2,884,696<br>(1,547,111)           | _        | 1,337,585 |
| Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position. Also governmental funds report the effect of bond issuance costs and premiums, whereas these amounts are deferred and amortized in the Statement of Activities. Current year items are as follows:  Principal payments of general obligation bonds  Amortization of bond premiums  Amortization of bond issuance costs | 820,000<br>13,118<br>(1,484)             |          | 831,634   |
| An internal service fund is used by management to track collections of medical and dental insurance premiums and Section 125 deductions from the employer and employee as well as disbursements for health and dental insurance premiums and plains. Section 125 delime, and other employee heapfile.  |  |          |           |
| claims, Section 125 claims, and other employee benefits. ## (1) Summary of Significant Accounting Policies

The City of Pella, Iowa is a political subdivision of the State of Iowa located in Marion County. It was incorporated in 1868 and operates under the Home Rule provisions of the Constitution of Iowa. The City operates under the Mayor-Council form of government with the Mayor and Council Members elected on a non-partisan basis. The City provides numerous services to citizens including public safety, public works, culture and recreation, community and economic development and general government services. It also provides water, sewer, electrical and sanitation utilities.

The financial statements of the City of Pella, Iowa, are prepared in conformity with U.S. generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board.

## A. Reporting Entity

For financial reporting purposes, the City of Pella has included all funds, organizations, agencies, boards, commissions and authorities. The City has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the City to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the City. The City of Pella has no component units which meet the Governmental Accounting Standards Board criteria.

While the South Central Regional Airport Agency did not fit the criteria to be included as a component unit, disclosure about the nature of the relationship and accountability is required. The City of Pella, City of Oskaloosa and Mahaska County have entered into a 28E Agreement known as the South Central Regional Airport Agency. The City of Pella appoints 3 of the 6 members on the board. Four votes are required for a majority to approve matters. Capital expenditures are reimbursed 90% by the Federal Aviation Authority, 5% by the City of Pella and 5% by the City of Oskaloosa. Operating expenditures are reimbursed 60% by the City of Pella and 40% by the City of Oskaloosa. The South Central Regional Airport Agency had a separate audit. Financial statements are available at the Pella City Hall, 825 Broadway Street, Pella, IA 50219 or the Oskaloosa City Hall, 220 S. Market St., Oskaloosa, IA 52577, 641-673-9431.

#### B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position (previously referred to as net assets) and the Statement of Activities report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are supported by property tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the City's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net invested in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental and proprietary funds. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds.

The City reports the following major governmental funds:

The General Fund is the general operating fund of the City. All general tax revenues from general and emergency levies and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs not paid from other funds.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The City reports the following major proprietary funds:

#### Enterprise:

The Water Fund is used to account for the operation and maintenance of the City's water system.

The Wastewater Fund is used to account for the operation and maintenance of the City's wastewater treatment and sanitary sewer system.

The Sanitation Fund is used to account for the operation and maintenance of the City's solid waste collection system.

The Electric Fund is used to account for the operation and maintenance of the City's electricity production, procurement and transmission system.

In addition, the City reports the following fund types:

The Internal Service Fund is utilized to account for the financing of goods or services purchased by one department of the City and provided to other departments or agencies on a cost reimbursement basis.

These non-major governmental funds are grouped for financial statement reporting purposes:

The Debt Service Fund is used to account for property tax and other revenues to be used for the payment of interest and principal on the City's general long-term debt.

#### Special Revenue:

The Pella Business Corridor Tax Increment Financing Fund is used to account for revenues from the tax authorized by ordinance in the urban renewal district and used to pay the principal and interest on the general obligation capital loan notes and other indebtedness incurred for urban renewal redevelopment projects.

The High Point Tax Increment Financing fund is used to account for revenues from the tax authorized by ordinance in the urban renewal district and used to pay the principal and interest on the general obligation capital loan notes and other indebtedness incurred for urban renewal redevelopment projects.

The Road Use Tax fund is used to account for road construction and maintenance.

The Local Option Sales Tax fund is used to account for the revenues from the tax authorized by referendum and used for aquatic center, debt relief, capital improvements, equipment and community programs and services.

The Employee Benefits fund is used to account for property tax levied to finance the payment of employee benefits.

The Pella Clothing Bank, Police Reserve, Community Development Trust, Carnegie-Viersen Library Gift/Memorial, Pella Community Center Trust, Pella Community Center Van Trust, Art Center Trust, Airport Trust, Police Asset Forfeiture, Soccer Complex, Community Gardens Trust, Community Service Scholarship Trust, Parks Development, and Carnegie-Viersen-Van Gorp Trust funds receive proceeds from specific revenue sources that are legally restricted to expenditures for specific purposes.

The Permanent funds resources are restricted to the extent that only earnings and not principal may be used for purposes that support the reporting government's programs. That is, for the benefit of the government or its citizenry.

## C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days after year end.

Property tax, local option sales tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the City.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the City's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Under terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Enterprise Funds is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City maintains its financial records on the modified accrual basis. The financial statements of the City are prepared by making memorandum adjusting entries to the modified accrual basis financial records.

#### D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Cash Equivalents and Pooled Investments</u> - The cash balances of most City funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Public Agency Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost. Interest earned on investments is recorded in the General Fund unless otherwise provided by law.

For purposes of the statement of cash flow, all short-term cash investments that are highly liquid (including restricted assets) are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Trade receivables</u> – Trade receivables are recorded in the enterprise funds at the time the service is billed. Unbilled usage for service consumed between periodic scheduled billing dates is estimated and is recognized as revenue in the period in which the service is provided. Trade receivables for the enterprise funds are listed net of an allowance for uncollectible accounts. The allowance for uncollectible accounts is calculated each year. See note 3.

<u>Inventories</u> - Inventories are valued at cost using the first-in/first-out method. Inventories in the Enterprise Funds consist of materials and supplies. Inventories are recorded as expenses when consumed rather than when purchased.

<u>Property Taxes Receivable, Including Tax Increment Financing</u> - Property tax, including tax increment financing, in governmental funds is accounted for using the modified accrual basis of accounting. Property taxes receivable represent taxes received by or expected to be received within 60 days after year end.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the City to the County Board of Supervisors. Current year property tax receivable represents taxes collected by the County but not remitted to the City at June 30, 2013 and unpaid taxes. The succeeding year property tax receivable represent taxes certified by the City to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the City is required to certify its budget to the County Auditor by March 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenues recognized in these funds become due and collectible in September and March of the current fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects tax asking contained in the budget certified to the County Board of Supervisors in March, 2012.

<u>Due from Other Governments</u> - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Restricted Assets</u> - Funds set aside for payment of Enterprise Fund revenue notes are classified as restricted assets since their use is restricted by applicable note indentures. Other restricted assets include special purpose funds and customer deposits restricted for application to unpaid customer accounts or for refund to customers.

<u>Capital Assets</u> - Capital assets, which include property, equipment, vehicles and infrastructure assets acquired after July 1, 1980 (e.g. roads, curbs, gutters, sidewalks and similar items which are immovable and of value only to the City) are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position and in the Proprietary Funds Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair not adding to the value of the asset or materially extending asset lives are not capitalized. Reportable capital assets are defined by the City as assets with an initial, individual cost in excess of \$5,000, or lower if they want to specifically track and identify the asset such as computer purchases, and estimated useful lives in excess of five years.

Capital assets depreciated using the straight line method of depreciation over the following estimated useful lives in years, are as follows:

C-4:---4---4

|  | Estimated<br>Useful Lives |
|--|---------------------------|
| Asset Class                              | (In Years)                |
| Roads                                    | 20-50                     |
| Wastewater, Water and Electrical Systems | 25-75                     |
| Buildings                                | 40                        |
| Improvements                             | 25-35                     |
| Furniture, fixtures, and equipment       | 5-35                      |
| Vehicles                                 | 5-7                       |
|  |                           |

<u>Capitalized Interest</u> - Interest costs are capitalized when incurred by proprietary funds on debt where proceeds were used to finance the construction of assets. Interest earned on proceeds of tax-exempt borrowing arrangements restricted to the acquisition of qualifying assets is offset against interest costs in determining the amount to be capitalized. Capital improvements made in the water, sewer and electric funds were financed with existing revenues, no interest on debt was incurred or capitalized.

<u>Deferred Revenue</u> - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of delinquent property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Position consists of succeeding year property tax and tax increment financing receivable that will not be recognized as revenue until the year for which they are levied.

<u>Compensated Absences</u> - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

All vested vacation leave is in current compensated absences. In accordance with the provisions of Governmental Accounting Standards Board Statement 16, "Accounting for Compensated Absences," no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. One year sick pay allocation is included in current compensated absences. Sick pay which has built up in an employees account, but is not expected to be paid in the current year is in long-term compensated absences. Liabilities have been computed based on rates of pay as of June 30, 2013.

<u>Long-term Liabilities</u> – In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business type activities column in the Statement of Net Position and the proprietary fund Statement of Net Position.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the City Council through ordinance or resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same action it employed to commit those amounts.

*Unassigned* – All amounts not included in other spendable classifications.

#### E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2013, disbursements exceeded the amount budgeted in the community and economic development and debt service functions.

## (2) Cash and Pooled Investments

The City's deposits at June 30, 2013 were entirely covered by Federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The City is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the City Council; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The City's investments at June 30, 2013 are as follows:

| Certificates of deposit             | \$<br>254,882 |
|-------------------------------------|---------------|
| Iowa Public Agency Investment Trust | 247,083       |
| Money Market Liquid Funds           | 41,320        |
| Government Bonds                    | 14,058        |
| Total                               | \$<br>557,343 |

The investments in the Iowa Public Agency Investment Trust are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit risk: The investment in the Iowa Public Agency Investment Trust is rated Aaa by Moody's Investors Service. The investments in Government Bonds are primarily invested in U.S. Treasury securities.

## (3) Trade Accounts Receivable and Allowance for Uncollectibles

Utility revenue is recorded when earned. Customers are billed monthly. The City Municipal Water, Wastewater, Sanitation, and Electric Utility's trade accounts receivable is based on actual customer billings. If a customer defaults on their bill, current policy does not remove their balance or details from accounts receivable. The idea being, if that same party seeks utility service from one of the municipal utilities it will not be provided until the old bill is paid. To compensate for these uncollectible balances, the allowance for uncollectible accounts includes 100% of accounts 60 days or older and 50% of accounts 30 days old. An allowance for uncollectibles has been calculated for the following enterprise funds: Electric, Water, Wastewater and Sanitation. Amounts are as follows: \$248,143, \$46,934, \$38,982 and \$16,787, respectively.

## (4) Proprietary Revenues Net of Discounts and Allowances

|                 |               | (Increase)  |                 |
|-----------------|---------------|-------------|-----------------|
|                 | Gross Charges | Decrease in | Net Charges for |
| Enterprise Fund | for Services  | Allowance   | Service         |
| Water           | \$ 2,045,011  | (5,107)     | 2,039,904       |
| Wastewater      | 1,860,425     | (1,080)     | 1,859,345       |
| Electric        | 16,564,808    | (10,571)    | 16,554,237      |
| Sanitation      | 622,686       | (121)       | 622,565         |

## (5) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## (6) Emission Credits

The Electric Fund earns emission credits throughout the year. These credits are expended if emissions are below EPA set requirements. The City has no cost in the credits; therefore, according to available accounting guidance, they have not been recorded in the financial statements. The credits are potentially saleable, however, and should the City's emissions be below acceptable levels, these credits would offset otherwise imposed costs. Emission credit activity and value of the unused credits for the year ended June 30, 2013 is as follows:

| Number of Credits |          |        |             |             |           | Val    | ue |        |
|-------------------|----------|--------|-------------|-------------|-----------|--------|----|--------|
|                   |          |        | Used/       |             |           |        |    |        |
| Credit Type       | 7/1/2012 | Earned | Transferred | Bought/Sold | 6/30/2013 | Each   |    | Total  |
| SO2 (1 Ton)       | 8,600    | 0      | -108        | 0           | 8,492     | \$0.60 | \$ | 5,095  |
| SO2 (.5 Ton)      | 5,292    | 1,764  | 0           | 0           | 7,056     | 0.60   |    | 4,234  |
| Nox(Annual)       | 153      | 140    | -76         | 0           | 217       | 38.00  |    | 8,246  |
| Nox(Seasonal)     | 119      | 63     | -1          | 0           | 181       | 21.00  |    | 3,801  |
| Total             | 14,164   | 1,967  | -185        | 0           | 15,946    | _      | \$ | 21,376 |

# (7) Capital Assets

Capital assets activity for the year ended June 30, 2013 was as follows:

| Primary Government:                         | В  | Balance<br>eginning of |           |           | Balance<br>End of |
|---|----|------------------------|-----------|-----------|-------------------|

### General Obligation Bonds

Four issues of unmatured general obligation bonds/notes totaling \$3,115,000 are outstanding at June 30, 2013. General obligation bonds/notes bear interest rates ranging from 3.00% to 4.10% per annum and mature in varying annual amounts, ranging from \$115,000 to \$380,000, with final maturities due in the year ending June 30, 2020.

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities. These bonds therefore are reported in the proprietary funds if they are expected to be repaid from proprietary revenues. General obligation bonds are direct obligations and pledge the full faith and credit of the City.

Details of general obligation bonds/notes payable at June 30, 2013 are as follows:

| Governmental activities                 | Date of Issue | Interest<br>Rates | Final<br>Due Date | Annual<br>Payments | Amount<br>Originally<br>Issued | Outstanding<br>June 30,<br>2013 |

#### Revenue Notes

Five issues of unmatured revenue notes totaling \$6,494,627 are outstanding at June 30, 2013. These notes bear interest at rates ranging from 3.00% to 3.70% per annum and mature in varying annual amounts ranging from \$29,000 to \$370,000 with the final maturity due in the year ending June 30, 2029.

The resolution providing for the issuance of the revenue notes includes the following provisions:

- a) The notes will only be redeemed from the future net revenues of the enterprise activity and the note holders hold a lien on the future net revenues of the funds.
- b) Sufficient monthly transfers shall be made to a revenue note retirement account for the purpose of making the note principal and interest payments when due.
- c) Separate water and wastewater improvement and replacement accounts have been accumulated. These accounts are restricted for the purpose of paying for any additional improvements, extensions, repairs to the system, or principal or interest payments if necessary.
- d) User rates shall be established at a level which produces and maintains net revenues at a level not less than 110% for wastewater, and not less than 130% for water, of the amount of principal and interest on the notes falling due in the same year. Net revenues are defined as gross earnings after the deduction of current expenses; including the cost of operating, maintaining, repairing and insuring the system, purchases at wholesale, salaries, wages, and cost of materials and supplies. This excludes; the cost of depreciation, principal and interest payments, capital expenditures, franchise fees and transfers.

During the year ended June 30, 2013, the City was in compliance with the revenue note provisions.

Details of revenue notes payable at June 30, 2013, are as follows:

The following is a summary of the transactions for revenue notes, net of unamortized discounts, for the water, sewer, and electric utilities for the year ended June 30, 2013:

|   | <br>Balance<br>Beginning |           |           | Balance<br>End of |
|---|--------------------------|-----------|-----------|-------------------|
|   | of Year                  | Increases | Decreases | Year              |
| Water revenue notes                         | \$<br>1,015,000          | -         | (350,000) | 665,000           |
| Unamortized discount                        | (9,427)                  | -         | 3,233     | (6,194)           |
| Net water revenue notes                     | 1,005,573                | -         | (346,767) | 658,806           |
| Sewer revenue notes                         | 3,937,767                | 2,147,861 | (256,000) | 5,829,628         |
| Net sewer revenue notes                     | 3,937,767                | 2,147,861 | (256,000) | 5,829,628         |
| Electric revenue notes Unamortized discount | -                        | -         | -         | -                 |
| Net electric revenue notes                  | -                        | -         | -         | -                 |
| Total net revenue notes                     | \$<br>4,943,340          | 2,147,861 | (602,767) | 6,488,434         |

The \$2,147,860 increase in sewer revenue notes is from the SRF loan fund. It is a partial draw down on a loan that has been approved to be up to \$4,800,000. It is estimated that the funds may be distributed through the fall of 2013 with the first estimated payment to begin 6/1/2014. Actual interest and principal payments will be determined by the timing and extent of the actual funds borrowed. Principal payments for the purpose of this report were based on the estimated amortization tables provided, and no interest on these funds were included. Interest, once the loan is finalized, is estimated to be at 3.00%.

Advanced Refunding – November 1, 2011, the City sold their share in the WS-4 electric plant which provided the resources for \$12,045,000 of advance refunding on the City's electric bonds dated April 2004, June 2005 and January 2010. As a result, the advance refunded bonds are considered defeased and the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. As of June 30, 2013, \$600,000 of bonds considered defeased are still outstanding.

<u>Long-term Debt Interest Expense</u> - The long-term debt costs and interest, governmental activities, in the Statement of Activities in the amount of \$128,334 is all direct debt costs and interest expense on long-term debt.

Discount and issuance costs are deferred and amortized over the term of the notes using the straight-line method, which approximates the effective interest method. Discounts are presented as a reduction of the face amount of bonds/notes payable whereas issuance costs are recorded as deferred charges. The details of the discounts are listed in the previous schedules. The unamortized issuances costs are listed as an asset on the balance sheet. The issuance costs are amortized over the life of the loan and are included in interest and debt costs. Issuance costs detail is as follows:

|                               | В  | Balance<br>eginning<br>of Year | Incurred | Amortized | Balance<br>End of<br>Year |
|-------------------------------|----|--------------------------------|----------|-----------|---------------------------|
| Governmental activities:      |    |                                |          |           | _                         |

### (11) Retirement Plans

<u>lowa Public Employees Retirement System</u> - The City contributes to the lowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of lowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Most regular plan members are required to contribute 5.78% of their annual covered salary and the City is required to contribute 8.67% of covered salary. Certain employees in special risk occupations and the City contribute an actuarially determined contribution rate. Contribution requirements are established by state statute. The City's contributions to IPERS for the years ended June 30, 2013, 2012 and 2011, were \$362,466, 379,803, and \$315,024, respectively, equal to the required contributions for each year.

# (11) Retirement Plans (continued from previous page)

<u>Municipal Fire and Police Retirement System of Iowa</u> - The City contributes to the Municipal Fire and Police Retirement System of Iowa (the Plan), which is a cost-sharing multiple-employer defined benefit pension plan administered by a Board of Trustees. The Plan provides retirement, disability, and death benefits which are established by state statute to plan members and beneficiaries. The Plan issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to Municipal Fire and Police Retirement System of Iowa, 7155 Lake Drive, Suite 201, West Des Moines, Iowa 50266.

Plan members are required to contribute 9.40% of earnable compensation and the City's contribution rate, based upon an actuarially determined normal contribution rate, is 26.12% of earnable compensation. Contribution rates are established by state statute. The City's contribution to the Plan for the years ended June 30, 2013, 2012 and 2011 were \$200,581, \$171,009, and \$137,243, respectively, which met the required minimum contribution for each year.

## (12) Other Postemployment Benefits (OPEB)

<u>Plan Description</u> - The City operates a single-employer retiree benefit plan which provides medical/prescription drug benefits for retirees and their spouses. There are 89 eligible, 75 active and one retired member in the plan. General participants (IPERS) must be age 55 or older at retirement. Police participants (MFDRSI) must be age 55 or older with 22 years of service at retirement. Surviving spouse/dependents of retirees are allowed to remain on health coverage at their own expense until age 65.

The medical/prescription drug coverage is provided through a purchased high deductible health insurance plan and a partially self-funded plan where the City funds the difference between the deductibles and out-of-pocket maximums charged to employees and those covered by the purchased plan. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit rate subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the City. The City currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The City's annual OPEB cost is calculated based on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the City's annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the City's net OPEB obligation:

| Annual required contribution   | \$<br>30,030     |
|--|------------------|
| Interest on net OPEB obligation Adjustment to annual required contribution | 3,687<br>(3,522) |
| Annual OPEB cost   | <br>30,195       |
| Contributions made   | <br>(3,893)      |
| Increase in net OPEB obligation  | 26,302           |
| Net OPEB obligation beginning of year                                      | <br>92,166       |
| Net OPEB obligation end of year  | \$<br>118,468    |

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2013.

The required contribution is based on projected pay-as-you-go financing. For fiscal year 2013, the City contributed \$3,893 toward the annual required OPEB contribution. It also funded 90% of the established premium toward active members' health coverage. Active members receiving benefits contributed \$82,375, or 10% of the established premium, through their required contribution of \$47 or \$99 per month, depending on whether single or family coverage is elected. There was one retiree covered during the 2013 fiscal year.

### (12) Other Postemployment Benefits (continued from previous page)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2013 are summarized as follows:

|               |     |          | Percentage of    |              |
|---------------|-----|----------|------------------|--------------|
|               | Ann | ual OPEB | Annual OPEB      | Net OPEB     |
| Year ended    |     | Cost     | Cost Contributed | Obligation   |
|               |     |          |                  | _            |
| June 30, 2010 | \$  | 24,155   | 4.4%             | \$<br>45,156 |
| June 30, 2011 |     | 20,780   | 4.4%             | 65,936       |
| June 30, 2012 |     | 26,230   | 4.0%             | 92,166       |
| June 30, 2013 |     | 30,195   | 4.0%             | 118,468      |

<u>Funded Status and Funding Progress</u> - As of July 1, 2011, the most recent actuarial valuation date for the period July 1, 2011 through June 30, 2012, the actuarial accrued liability was \$256,727, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$256,727. The covered payroll (for the year ended June 30, 2013) was approximately \$4,522,000 and the ratio of the UAAL to covered payroll was 5.7%. As of June 30, 2013, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2011 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 4% discount rate based on the City's funding policy. The projected annual medical trend rate is 8.5%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2010 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2010.

Projected claim costs of the medical plan are \$867 per month for retirees less than age 65. The salary increase rate was assumed to be 3% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

### (13) Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457 for employees and Code Section 401 for the position of City Administrator. The 457 plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights must be held in trust of the exclusive benefit of plan participants and beneficiaries. These funds are invested and held by the ICMA-RA (International City County Management Association Retirement Corporation) and not by the City. Therefore, they are not listed as a liability of the City.

### (13) Deferred Compensation Plan (continued from previous page)

It is the opinion of the City's legal counsel that the City has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

# (14) Related Party Transactions

The City had business transactions between the City and Council members totaling \$144,467 during the year ended June 30, 2013. There were no related payables at June 30, 2013.

### (15) Major Customer

During the year ended June 30, 2013, the City of Pella Municipal Electric Utility had two major customers. They purchased \$3,506,223 and \$2,496,100 of electric power. These charges represent 21.18% and 15.08%, respectively, of total charges for electric services.

### (16) Risk Management

<u>Insurance</u> - The City of Pella carries commercial insurance purchased from issuers for coverage associated with risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Shared Funding/Partial Self-Funding Health Care Plan – The City of Pella entered into a 28E agreement on July 7, 2009, as allowed by Chapter 28E of the Code of lowa which authorizes the joint exercise of governmental powers that would include a cooperative agreement to create and maintain a health benefit program. The participating agencies join together to form the lowa Governmental Health Care Plan (IGHCP). IGHCP is a benefits trust for shared risk pooling among Public Employers in the State of lowa. Its unique design allows entities to enter into the trust based on claims experience, plan design and demographics. The entities are then pooled at renewal, using total claims experience to develop renewal percentages.

IGHCP purchases a high deductible health insurance plan from Wellmark, Blue Cross/Blue Shield. The City funds the difference between the deductibles and out-of-pocket maximums charged to employees and those covered by the purchased plan.

The City escrows funds from each month to be used to pay medical claims incurred. The maximum exposure to the City for claims incurred is limited by the spread between the deductibles and out-of-pocket maximums and those of the policy carried by the City. For 2012, the risk spread for employees with single coverage was \$2,750 per employee and for those with family coverage was \$5,500 per employee. The total risk in 2012 was \$396,000. In 2013, the risk spread was \$2,750 for employees with single coverage and \$5,500 for employees with family coverage. Total risk in 2013 was \$349,250 if every employee hit their maximum out-of-pocket amounts.

At June 30, 2013, the plan held \$722,467 cash and pooled investments. The actuarial estimate of the reserves necessary for the claims incurred but not yet paid was \$25,000, which is listed as the accounts payable balance of the Internal Service Fund.

# (17) Commitments

The City has entered into several contracts totaling \$7,452,873. At June 30, 2013, \$4,098,774 had been paid towards these contracts. The remaining amounts will be paid as work on the projects progresses.

### (18) Contingent Liability and Gain

The City has been awarded \$788,000 from a lawsuit filed concerning construction of certain parts of the new aquatic center. The matter proceeded to trial July, 2011 and, while judgment was made in favor of the City, action related to collection of the judgment is ongoing. The success of collection of this judgment is unknown at this time.

# (19) Subsequent Events

The City awarded a bid on December 3, 2013, for the Demolition Contract and performance Bond for the Power Plant Deconstruction project. The total project cost bid is \$2,354,000. Funding for the project will be from the \$3,500,000 Electric Revenue Capital Notes approved by Council on January 21, 2014. The bond proceeds are to be used as follows:

| Power Plant Deconstruction Project             | \$2,354,000    |
|--|----------------|
| S.E. Electrical Underground Conversion Project | 571,000        |
| Diesel Plant Control System Upgrade            | <u>575,000</u> |
| Total  | \$3,500,000    |

The City awarded a bid on December 17, 2013 to Garling Construction, for the renovation of the City's indoor pool. Funding for the project will be provided from the issuance of \$3,200,000 Local Option Sales and Service Tax General Obligation bonds, expected to be approved by Council in March of 2014.

The City budgets on the modified accrual basis. It includes proprietary expenditures outlays for capital assets and debt principal paid with adjustments to remove the effects of depreciation and bond issuance and discount costs recognized in GAAP accounting. The adjustments account for the \$4,452,866 adjustment to proprietary expenditures.

See accompanying independent auditor's report.

# City of Pella, Iowa Notes to Required Supplementary Information - Budgetary Reporting Year ended June 30, 2013

The budgetary comparison is presented as Required Supplementary Information in accordance with *Government Accounting Standards* Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the City Council annually adopts a budget on the modified accrual basis following required public notice and hearing for all funds. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control is based upon nine major classes of disbursements known as functions, not by fund. These nine functions are: public safety, public works, health and social services, culture and recreation, community and economic development, general government, debt service, capital projects, and business type activities. Function disbursements required to be budgeted include disbursements for the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Fund and Enterprise Funds. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. During the year, one budget amendment increased budgeted revenues by \$1,247,517, increased budgeted disbursements by \$1,014,524. This budget amendment is reflected in the final budgeted amounts.

During the year ended June 30, 2013, disbursements in the community and economic development, business type activities, and debt service functions exceeded the amounts budgeted.

See accompanying notes to schedule of expenditures of federal awards

#### Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of the City of Pella for the year ended June 30, 2013. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of states, Local Governments and Nonprofit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

# Note 2. Significant Accounting Policies

For governmental funds, in accordance with the modified accrual basis of accounting, revenue from federal grants is recognized when they become both measureable and available. For proprietary funds, in accordance with the accrued basis of accounting, revenues from federal grants are recognized in the period they are earned. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

#### Note 3. Federal Loan Outstanding

The City participates in the following loan program for which loan amounts and payments are not required to be included on the schedule of expenditures of federal awards.

CFDA # Outstanding Balance
Program As of June 30, 2013
Clean Water State Revolving Fund \$3,373,628

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Mayor and Members of the City Council City of Pella, Iowa:

#### Report on Compliance for Each Major Federal Program

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the City of Pella, lowa, as of and for the year ended June 30, 2013, and the related notes to financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 6, 2014.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Pella's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Pella's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Pella's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Pella's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the City's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the City. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

### City of Pella's Responses to Findings

The City of Pella's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The City of Pella's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the City of Pella during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance for Each Major Federal Program, on Internal Control over Compliance and on the Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

To the Honorable Mayor and Members of the City Council City of Pella, Iowa:

### Report on Compliance for Each Major Federal Program

We have audited the City of Pella's compliance with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the City of Pella's major federal programs for the year ended June 30, 2013. The City of Pella's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grant agreements applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the City of Pella's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Pella's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination on the City of Pella's compliance.

#### Opinion on each Major Federal Program

In our opinion, the City of Pella complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

### Report on Internal Control Over Compliance

The management of the City of Pella is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Pella's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures appropriate in the circumstances for the purpose of expressing our opinion on compliance for major federal programs and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Pella's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

March 6, 2014

#### Part I: Summary of the Independent Auditor's Results:

- (a) Unmodified opinions were issued on the financial statements.
- (b) No material weaknesses in internal control over financials reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over the major program were noted.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which were required to be reported in accordance with Office Management and Budget Circular A-133. Section .510a).
- (g) The major programs were as follows:
  - CFDA Number 66.458 Clean Water State Revolving Fund
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) The City of Pella qualified as a low-risk auditee.

### Part II: Findings Related to the Financial Statements:

#### **INTERNAL CONTROL DEFICIENCIES:**

No matters were noted.

#### **INSTANCES OF NON-COMPLIANCE:**

No matters were noted.

#### Part III: Findings and Questioned Costs For Federal Awards:

### **INSTANCES OF NON-COMPLIANCE:**

No matters were noted.

#### INTERNAL CONTROL DEFICIENCIES:

No material weaknesses in internal control over the major program were noted.

### Part IV: Other Findings Related to Required Statutory Reporting:

(1) <u>Certified Budget</u> - Expenditures for the year ended June 30, 2013, exceeded the budget in the community and economic development, business type activities, and debt service functions. Chapter 384.20 of the Code of lowa states in part that public monies may not be expended or encumbered except under an annual or continuing appropriation.

Recommendation - The budget should have been amended in accordance with Chapter 384.20 of the Code of lowa before disbursements were allowed to exceed the budget.

Response - The budget will be amended in the future.

Conclusion - Response accepted.

- (2) <u>Questionable Disbursements</u> No disbursements were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- (3) <u>Travel Expense</u> No expenditures of City money for travel expenses of spouses of City officials or employees were noted.
- (4) <u>Business Transactions</u> Business transactions between the City and City officials or employees for the year ended June 30, 2013 are detailed as follows:

| Name, Title and<br>Business Connection                                 | Transaction <u>Description</u>     | <u>Amount</u>     |
|--|------------------------------------|-------------------|
| Bruce Schiebout, Council Member<br>Owner of Eagle Electric             | Core drills<br>Install Feeder Line | \$ 890<br>\$2,073 |
| Mark De Jong, Council Member<br>Owner De Jong Greenhouses              | Flowers                            | \$120             |
| David Vander Horst, Council Member<br>Owner of Digital Solutions, Inc. | IT Services                        | \$141,384         |

There were no related payables at June 30, 2013.

The first transaction listed, which exceeded \$1,500 may be in conflict with Chapter 362.5(3)(j) of the Code of lowa. In accordance with Chapter 362.5(3)(j) of the Code of lowa, the second transaction with one of the Council Members does not appear to represent conflict of interest since the total transaction with the individual was less than \$1,500 during the fiscal year. The third transaction with the council member which exceeded \$1,500 does not appear to be a conflict of interest since it was entered into through competitive bidding in accordance with Chapter 362.5(3)(d) of the Code of lowa.

Recommendation - The transactions with the first Council Member listed may be in conflict with Chapter 362.5(3)(j) of the Code of Iowa and the City may want to consult legal counsel on this matter.

Response – The City's legal counsel has reviewed all of the above business transactions for potential conflict of interest under the lowa Code 362.5 (3) (j). The City's transaction with Council Member Bruce Schiebout followed standard city procedures for providing the installation of electric feeder lines. In instances where new feeder lines are extended to commercial customers, the City employs the organization's electrical contractor to minimize the difficulty in scheduling conflicts, avoid the potential distribution of customer's proprietary information, minimize cost and limit the legal liability associated with selecting a City appointed contractor. In this particular case, service needed to be extended to Pella Corporation; Eagle Electric was their electrical contractor.

Conclusion - Response accepted.

- (5) <u>Bond Coverage</u> Surety bond coverage of City officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.
- (6) <u>Deposits and Investments</u> No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the City's investment policy were noted.
- (7) <u>Council Minutes</u> Published minutes did not include the purpose of the expenditure, total disbursements by fund, and a summary of receipts.

Recommendation - The purpose of expenditures should be included in the published minutes.

Response - When expenditures are approved by Council, a description of the expenditure is provided that ranges in length from seven to fifteen words. The system does not have the capability to print a report that summarizes our description into one word for publication purposes. We will investigate our ability to include the other information.

Conclusion - Response accepted.

- (8) Revenue Bonds The City has complied with the provisions of the revenue bond indentures.
- (9) <u>Urban Renewal Annual Report</u> The urban renewal annual report was properly approved and certified to the lowa Department of Management on or before December 1, 2013.
